

GR800-Series Cabinet for Server, Storage, and Networking

System Guide

Keep your infrastructure protected and organized

Description

42U Network & Server Cabinet is an industry-standard server and network equipment storage solution for data centers, computer rooms or network facilities, and allows you to make a network or server cabinet.

Server Cabinet Solution

As a server cabinet, it supports computer server and data storage equipment by providing additional space at the rear for cable management and front-to-rear airflow solutions.

Product Options in this Cabinet

FS offers a full line of products and options that include PDUs, UPSs and others to help perfect your server cabinet.
