

# 1x2 Red/Blue DWDM Splitters, LC/UPC

Pluggable Module for M6200 Series Multi-Service Transport System

## Description

1x2 DWDM Red/Blue Band Filter pluggable module is made of passive and micro optics device based on environmentally stable thin film filter technology.

It is used to separate or combine Red band wavelength signals and Blue band wavelength signals in C-band range single fiber Bi-directional DWDM systems.

## Features

- High channel isolation
- Excellent environmental reliability
- Hot swappable module
- Highly integrated with M6200 series management platform

## Application

- Single fiber Bi-directional DWDM system

## Product Specifications

| Parameter                           | Description   |
|-------------------------------------|---|
| Operating Wavelength                | C-Band  |
| Pass Band Wavelength (Red)          | C21-C35 (1547~1561nm)   |
| Reflection Band Wavelength (Blue)   | C45-C60 (1530~1543.2nm)   |
| Pass Channel Insertion Loss *       | 0.8dB   |
| Reflection Channel Insertion Loss * | 0.6dB   |
| Channel Ripple                      | 0.3dB   |
| Adjacent Channel Isolation          | 30dB  |
| Express Channel Isolation           | 12dB  |
| Polarization Dependent Loss         | 0.1dB   |
| Polarization Mode Dispersion        | 0.1ps/nm  |
| Return Loss                         | 50dB  |
| Directivity                         | 55dB  |
| Power Handling                      | 300mW   |
| Connect Type                        | LC/UPC  |
| Housing                             | Pluggable module<br>(Occupies 1-slot in M6200 series managed chassis) |
| Operating Temperature               | -5 to 70° C   |
| Storage Temperature                 | -40 to 85° C  |

\* Note: The insertion loss is specified with connectors.

## Applications

M6200 series 1x2 Red/Blue DWDM Splitter can combine the Red transmit channels and the Blue receive channels onto a single fiber, and makes it possible to utilize single fiber strand for both transmitting and receiving, thus significantly maximizing investment and decreasing costs.

## Matching Chassis

M6200 series 1x2 Red/Blue DWDM splitters pluggable module occupies one slot in M6200 series managed chassis.

- Width: 444mm (17.48")
- Height: 88mm (3.46")
- Depth: 325mm (12.80")
