

# FS-ASWS Anti Static Wrist Strap Datasheet

Great for workers in data center, electronic assembly plants or repair depots to protect electronic devices that can be damaged by ESD.

## ESD Anti Static Wrist Strap Band, Wireless/Cordless

The ESD anti-static wrist strap provides safe grounding source by using the corona discharge effect to reduce the buildup or discharge of static electricity to protect the equipment from static electricity hazards. The strap without grounding cord allows freedom of movement around the lab or manufacturing environment.

## Standards Compliance

- ISO9001 Certificate

## Features

- Corona discharge effect
- Stainless steel elastic band
- PU plastic static dissipative device
- Discharge time less than 0.1s
- Without grounding cord, convenient to operate
- Designed with stainless elastic band, one size fits more

### Product Specification

|                                     |                               |
|-------------------------------------|-------------------------------|
| <b>Electrostatic Discharge Time</b> | <0.1s                         |
| <b>Color</b>                        | Black                         |
| <b>Hand Ring Resistance</b>         | $\leq 10^3 \Omega$            |
| <b>Wrist Strap Impedance Factor</b> | <50 $\Omega$                  |
| <b>Dimension of Strap (LxW)</b>     | 6.30"x0.67" (160x17mm)        |
| <b>Wrist Strap Material</b>         | Stainless steel elastic bands |
| <b>Main Parts Material</b>          | PU plastic material           |
